## PROGETTO BIT

---

L'essenza di Best in Table è realizzare prodotti unici, anticonvenzionali. La routine ha un grave difetto: tende ad essere molto noiosa. Il fascino di un prodotto artigianale è tutta un'altra cosa. Il nostro lavoro vuole trasmettere la storia umana celata dietro ogni dettaglio, ogni particolare. Vogliamo esaltare la bellezza delle cose mutevoli, mai simili, che donano emozioni uniche come uniche sono tutte le nostre creazioni.

Siamo consapevoli dei valori che ci rappresentano: **l'innovazione** è la determinante fondamentale del nostro lavoro. Amiamo sperimentare, riformare e modernizzare. Per questo utilizziamo materie prime e processi produttivi che garantiscano qualità e ottime prestazioni per ogni singolo dettaglio dei nostri tovaglioli. È il punto di congiunzione con il **made in Italy**: l'insensata artigianalità che ci rende differenti, unici. Per esserlo servono scelte decise, come quella verso la tutela dell'ambiente. Viviamo **l'ecosostenibilità** non come una barriera alla creatività, ma come un'opportunità che ci stimola ad adottare soluzioni inedite e di valore.

Pensare fuori dagli schemi significa offrire un progetto personalizzato. Per Best in Table **il cliente** rimane il centro di tutto, la nostra mission e la nostra ispirazione. Con lui cerchiamo di realizzare, attraverso la stampa dei nostri articoli, l'elemento distintivo che lo rappresenta. Ogni nostra creazione risente del suo stile, gusto e sensibilità. Le variazioni sul tema sono davvero infinite, dai materiali ai colori, dalle forme alle pieghe. L'esaltazione dell'unicità diventa così l'opportunità di non essere mai banali.

## BIT PROJECT

---

The essence of Best in Table is to create unique, unconventional products. Routine has a serious flaw: it tends to be very boring. The charm of a craft product is something different. Our work wants to transmit the human history hidden behind every detail, every little feature. We want to exalt the beauty of changing things, never similar to themselves, which give unique emotions as unique are all our creations.

We are aware of our values: **innovation** is the main aim of our work. We love experimenting, reforming and modernizing. That's why we use raw materials and production processes that guarantee quality and superior performances for every single detail of our napkins. This is the conjunction point with the **made in Italy**: the senseless craftsmanship that makes us different, unique. For this, we need to take decisive choices, such as the environmental protection. We live **eco-sustainability** not as a barrier to creativity, but as an opportunity that stimulates us to adopt unprecedented and valuable solutions.

Thinking outside the box means offering a personalized project. For Best in Table, **the customer** remains at the centre of everything, our mission and our inspiration. With him we try to create, through the printing of our articles, the distinctive element that represents him. Each of our creations is affected by his style, taste and sensitivity. The variations on the theme are really endless, from materials to decorations, from shapes to folds. The exaltation of uniqueness thus becomes the opportunity to never be ordinary.

Il bambù è ritenuto il tessuto ecologico con le più elevate performance di sostenibilità. La pianta cresce molto rapidamente azzerando gli interventi umani di lavorazione. Non ha bisogno di pesticidi o fertilizzanti, e non necessita di essere reimpiantata dopo il raccolto, rinascendo con nuovi germogli dalle radici. Richiede inoltre un uso estremamente efficiente e ridotto dell'acqua rendendone possibile lo sviluppo in zone impervie ed in aree in cui non sarebbe presente alcuna vegetazione.

Bamboo is considered the ecological fabric with the highest sustainability performance. The plant grows very quickly, eliminating the human interventions. It doesn't need pesticides or fertilizers, and it doesn't need to be replanted after harvest, reborn with new shoots from the roots. It also requires an extremely efficient and reduced use of water, making it possible to develop it in inaccessible places and in areas where there would be no vegetation.

## PAPERMAT<sup>®</sup>, SARTORIAL PLACEMATS

Il senso profondo del lusso, dell'eleganza, dell'armonia di stili e colori. Papermat<sup>®</sup> rappresenta la destinazione di tutto questo: la tavola, la bellezza, il design. È la nostra idea di rinnovamento estetico.

Il single use non è mai stato così ricco, così anticonformista. Ancora più innovativo, ancora più lontano dalle rindondanti vecchie abitudini.

## YOLO - NATURAL PAPER MENU

Yolo è trasformazione naturale. È la tavola delle idee, quelle folli e irriverenti che hanno la fastidiosa tendenza a diffondersi e radicarsi. Sono carte naturali, antimacchia, porta menù unici e innovativi. Il perfetto supporto per ogni tipo di proposta enogastronomica. È l'ispirazione che cerchiamo.
